The Hive for Schools

One curriculum-aligned platform for every teacher at your school

K-6 resources, 100+ interactive learning tools and a planner that connects it all. Over 10,000 teachers have run their school day from The Hive.

Approved NSW DoE Online Learning Tool

ST4S certification underway

Built by a former assistant principal and a software engineer

Tam, Mrs Learning Bee. Tam was a primary school teacher and assistant principal for over a decade in NSW schools. She has led school-wide synthetic phonics and explicit teaching initiatives, and trained thousands of teachers across K-6. Her resources are purposeful, curriculum-aligned, evidence-based, and help every student build strong foundations.

Jez, co-founder and software engineer. Jez built software at Domain and at Giraffe, a planning technology start-up, before he took on The Hive full time. He builds intuitive digital tools that are simple for teachers to use and easy for students to learn from. He believes the right technology gives teachers time back and keeps students engaged.

The same evidence-based teaching in every classroom

"I know I'm teaching literacy so much better than I ever have."

Hours back for every teacher

"I've used the Maths unit plans & associated resources to halve my planning & prep time this term."

New teachers ready from day one

"As a first-year teacher, I genuinely wouldn't have survived without it."

What's inside

- **Curriculum-aligned teaching, K-6.** Thousands of units, lessons, slides and programs mapped to NSW and Australian Curriculum outcomes. Built on explicit teaching and evidence-based strategies for literacy and mathematics, with differentiation included.
- **The whole school day, ready to teach.** With a powerful digital planner and visual timetable on the classroom screen all day, teachers can plan and organise their week with ease, and students always know what comes next.
- **100+ interactive tools and learning videos.** Model a concept on the big screen, then students practise it themselves.
- **Classroom management tools.** Timers, noise meter, name picker, groups, rotations and polls, plus calming music and social-emotional learning tools to support a calm, settled classroom.
- **Resource generators** that make custom teaching resources in minutes.
- **Student trackers** for assessments, skill checks and observations, set up the way you work.
- **Wordabase.** Curated word lists sorted by phoneme, grapheme, syllable type and skill, with its own generators and online tools for evidence-based literacy instruction aligned to the Science of Reading.
- **Teaching together.** A free co-teacher place for teacher's aides, job-share partners and student teachers. Stage teams arrive in 2027: see your team's plans for the week, and share slides across the stage.
- **Bite-sized professional learning** on evidence-based teaching methods from Mrs Learning Bee.

How The Hive works for your school

Set up in three steps

1

Order. Choose the number of teachers. You get one invoice, with your purchase order number on it.

2

Pay. Bank transfer or card, with 30 days to pay. Access starts when the invoice is paid, or at a later date of your choosing.

3

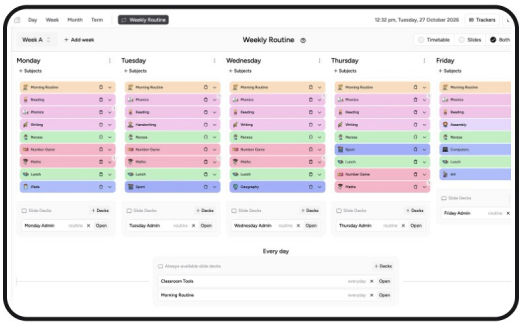

Invite your teachers. Each teacher gets an email and signs in. Teachers already in The Hive keep all their existing data.

What school leaders get

Staff usage dashboard (ready in 2027). See which teachers use The Hive and how often.

Teams for each stage (ready in 2027). See your team's plans for the week, and share slides across the stage.

Invite and remove teachers from one place, at any time.

Simple to buy

Price	$179.99 per teacher, per year, GST included. *That's $15 a month, per teacher*
Minimum	1 teacher
Payment	Invoice with your purchase order number. Bank transfer or card. 30 days to pay
Changes	Add teachers part-way through the year at a pro rata price. Remove teachers at any time
NSW public schools	Order through EdBuy, search "Mrs Learning Bee"

Safe for your students

- Approved NSW DoE Online Learning Tool.
- Safer Technologies 4 Schools (ST4S) certification underway.
- Student data stays in The Hive. We never send it to a third party.

What schools are saying

Outcomes you can see in the classroom

Every class teaches to NSW and Australian Curriculum outcomes.

Every class implements evidence-based & explicit teaching strategies.

With differentiation built into all resources, every student is working at the right level.

Quality lessons that are realistically paced, so teachers can confidently cover the curriculum.

"It's a godsend finding lesson plans that align with the syllabus, follow best practice pedagogies, are hands on and engaging! Plus the lesson sequences are achievable for my kiddos in the given time frame."

Classroom teacher

"I've used the Maths unit plans & associated resources to halve my planning & prep time this term. The phonics & literacy resources are second to none... Most resources have in-built differentiation... Everything is there, linked and backed by science."

Classroom teacher

"I know I'm teaching literacy so much better than I ever have, thanks to your incredible knowledge!"

Classroom teacher

"Saving me honestly hours a week in prep and planning."

Classroom teacher

From leadership

"The use of The Hive across our K-2 department has resulted in less time spent on weekly organisation, and provided consistency and clear routines across classrooms. It has also enabled teachers to access high-quality, evidence-based resources, along with digital tools that engage learners effectively."

Deputy Principal, NSW public school

"Our teachers would be at a loss without it as a result of the time it has saved them in their daily workflow."

Deputy Principal, NSW public school

"[The Hive] skyrockets their learning & helps them grasp concepts they once struggled with."

Assistant Principal, NSW public school

Whole stages are already on board

"This year I'm a mentor teacher and I showed my mentee the fluency passages. She used them during Learning Walks and her whole stage wanted to subscribe. I just used them in my HALT site visit for fluency pairs."

Mentor teacher

"The Hive is absolutely essential in my classroom. I truly believe it needs to be a staple in every single primary school classroom."

Year 6 teacher

Why principals choose The Hive

"Our classroom teachers access Mrs Learning Bee resources and The Hive on a daily basis and have done so over the past three years. The quality of the resources greatly support the teachers to teach the NSW curriculum and have supported positive engagement of our learners. We love that the resources are constantly updated and are strongly evidence-based especially connected to science of reading in the early years. [The Hive team] are always responsive in communication."

Principal, NSW public school
